KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited currency, believing that it would tend to the creation of a class of parasites, who, by their earnings and in the use of both gold and silver for exchange, provided always that a dollar in one is made precisely as valuable as a dollar in the other.

We favor a Tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to the workers and a home market to the producer, and insuring a home market to the consumer.

The re-establishment of the doctrine of reciprocity. We believe that such a system will defend every Government, expensive, gradually liquidates all unnecessary expenses, and insures a home market to the rear of the value of currency over presenting concerning the currency. In view of the past financial history of the Democratic party, its devotion to the Southern Confederacy and its tendencies to return, we fear that the Bryan party can be more easily tempted to repudiate the standard system of the Nation.

We favor an American policy which will protect American labor and American interests in every part of the world, and will sympathize with struggling Republics rather than ignominious monarchies.

Uncle Sam's Shortage.

The deficit in the National Treasury for the first 24 days of the present fiscal year is \$1,249,421.57.

DEMOCRATIC papers are pointing, with great exultation, to a number of large factories and mills where wages have been recently raised as proof not only that prosperity times are ahead, but that the general Democratic policy was right, after all.

We are quite willing to admit that a raise in wages is a strong argument of a return of business confidence. But there is a vast difference between a raise in wages from a normal standard, and a small raise from the depths of an abnormal cut.

What are the facts in the case? During 1888 and 1894 wages were cut in all industries from 35 to 45 per cent, even to 50 and 60 per cent.

Such a cut in wages has not been witnessed in this country in the memory of the present generation.

And now that, never mind from what cause, a small percentage of mills and factories have raised wages 5 to 15 per cent, from the bright out of '93 and '94, the Democrats and their newspapers are out with shouts of " Didn't

## Something Wrong Somewhere

A dozen symptoms tell you so. Every disease has its own distinguishing features and loss of appetite, feeling of indifference for the world and everybody in it, including yourself, eruptions that try to force the "badness" out through the skin all tell their tale.

we tell you so? Our policy is vindicated, after all?"

Why, even in the comparatively few cases where wages have been recently raised, the wages are still 20 to 30 per cent below the standard of '92.

Let us take a case which will cover a very multitude of wage earners.

Let us take the case of workers who got an average of \$2 a day in '92, that would be \$12 a week. The average cut in the wages of these operatives was about 25 per cent.

This reduced them to \$9 per week, or about \$1.50 per day.

Now there has been in some cases—remember it is only some—a raise of 10 per cent.

This would give these operatives a little less than \$10 a week, and they are still over \$2 a week behind the average of '92.

Even in the very few instances where the raise has been 15 per cent, it is obvious that the wages so raised are still far below what they were in '92. The Democratic outburst is therefore extremely premature, and savor of that clutching at straws which characterizes drowning men.

The Carlisle Mercury, whose clever Editor is the Democratic candidate for Railroad Commissioner for this District, prints an article from the Cynthia Democrat in which it is asserted that "Boss BRADLEY" manipulated the Republican Convention at Richmond. Bre'r KELLER, "you uns" are talking through your rye straw hats; the fact is, if there was any preference on the part of Mr. BRADLEY it was for a gentleman who was not nominated. It is folly to say that the Convention was "packed" in the interest of Boss BRADLEY." It was an open fight and a friendly one among the several candidates; and the nominee will win in November.

## THE POLICE

Save Insurance Agent Davidson From Being Lynched.

He is Accused of Criminally Assaulting a Seven-Year-Old Girl.

At One Time the Negro Was Around His Neck, But Prompt Intervention by the Officers Saved His Wretched Life.—

The Negro Was Terribly Injured.

INDIANAPOLIS, Ind., July 26.—Charles Davidson, an insurance agent of this city, would have been lynched Thursday night in the suburb of West Indianapolis but for the prompt intervention of the police. The negro, who is accused of having criminally assaulted Ida Hutchinson, a seven-year-old child, was found in the stable of his employer, Mr. Hutchinson, in the suburb. Her clothing was torn in shreds and her body bruised. For two hours her life was despaired of but at 3 o'clock she recovered consciousness and an hour afterward was able to speak and eat. She said her assailant had been to the father's house before, and she gave such a good description of him that suspicion at once fell upon Davidson, who was employed by the Muncie Life Insurance Co. to make weekly collections.

Men started out at once to find Davidson and he was soon caught. The news of his arrest was telephoned in advance of his arrival in the suburb. The people concluded that he was also guilty of the Gerhardi murder. A crowd bent on dealing summarily with the prisoner met him and his captors at the station house door. Afterwards a thousand factory hands gathered around the station and cried "Hang him" filled the air.

Fifty men stood Peace Justice Heifer here when he tried to get the prisoner inside the station. One man rushed forward with a rope, which he tried to throw over the head of the negro, but the justice warded it off with his hand.

Then Officer Perry arrived and with a revolver in each hand placed himself between the prisoner and the mob. The prisoner was pushed through the door and the mob followed, shouting "Hang him" as he was led to the buggy to the city in a gallop.

A wild race to the river began, the mob on foot trying to reach the river bridge first by cutting across the commons, but the buggy was a few steps behind. Davidson was landed safely.

Mr. Harvey again called his opponent to task for not confounding his remarks to the order of the day, and said that he would not be diverted from this order.

At this point Mr. Harvey challenged Mr. Horr to a duel, but as he had not brought his authorities with him and therefore for his arguments were ended to no avail. Mr. Horr then said that he had reported the matter to the director of the mint which he said reported that during the year 1910, 412,462 dollars in silver certificates were coined at the mint of Philadelphia.

Mr. Harvey again called his opponent to task for not confounding his remarks to the order of the day, and said that he would not be diverted from this order.

\$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who have made large fortunes by investing a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000, \$100,000, \$200,000, \$500,000, etc.

It is also a fact that those who make the largest fortunes from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who do not charge fees.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that you will always be in a position to profit even in a downward market.

FOR CONVINCING PROOF, refer to our Manual on Investment on our own plan, our Data Book, our Data Sheet, our Data Market Report, full of interesting pointers. ALL FREE. Our Data Sheet gives no margin trading fully. Higher references in regard to our standing and success.
